WELCOME TO THE

South BIM Hub

A Satellite group of the South East BIM Hub

November meeting

BIM News

- BS 1192-4:2014 Collaborative production of information Part 4: Fulfilling employers information exchange requirements using COBie – Code of practice
  Released last month

- PAS 1192-5: Specification for security-minded building information management, digital built environments and smart asset management"
  Currently in development

- NBS Awarded funding to develop Level 2 BIM Toolkit

Digital BIM toolkit

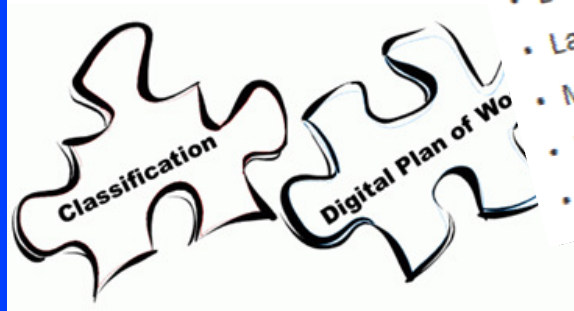
NBS awarded £1m contract to complete level 2 BIM for HM Government

A team led by

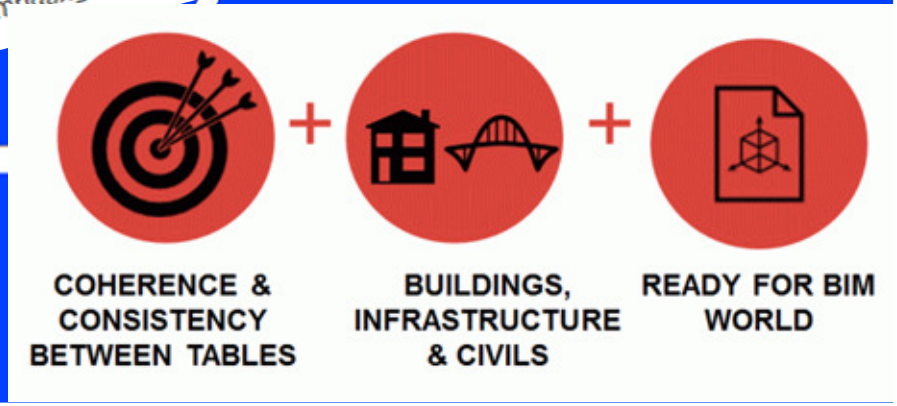
s won the £1 million Technology Strategy Board contract to take for
rmation Modelling (BIM). The BIM toolkit has the potential to tr
ure by defining and testing the BIM data required at eac

- BIM Academy – Open data BIM technologies and consultancy
- BDP – Multi-disciplinary design for the building sector
- Laing O'Rourke – Construction, design management and manufacturing for buildings and infrastructure
- Microsoft – Technology partner
- Mott MacDonald – Multi-disciplinary design for the infrastructure sector
- Newcastle University – Cloud computing consultancy

The suite of Level 2 documentation currently published



The two pieces of the jigsaw that the BIM Toolkit will complete



Over to Andy Hamer

South BIM Hub

Talking about how to capture the 'I' in BIM - Information.

Group discussion
What Information?

- Do you put additional information into the model
- What information do you put into the model
- Who requires the information
- What format is the information exported / used

Thank You For Your Time
